Here you will find the [menu](#) of **Red's Diner** in Calgary. At the moment, there are **23** meals and drinks on the list. Red's Diner has recently expanded to a new, accessible location, garnering praise for its welcoming atmosphere and extensive vegetarian and vegan options. Many patrons rave about the brunch selections, particularly the hazelnut crepes and vegetarian burgers, which have become local favorites. However, some recent reviews highlight disappointing experiences with their limited vegan dishes, including a lackluster tofu scramble and slow service. While the diner typically thrives with its generous portions and friendly staff, various diners have noted inconsistencies in food quality and service. Despite some setbacks, the overall vibe remains charming, making it a popular spot for casual meals.
